

STEVANATO GROUP QUALITY POLICY

Stevanato Group aims to partner and accompany its customers through the life cycle of their products from concept development to commercialization and post-sales support.

The Group is committed to delivering high quality products, advanced technologies, and services that fulfill and anticipate its customers' needs and ensure end-user safety.

Stevanato Group focuses on its customers, monitoring and measuring the performance of the organization to guarantee the reliability of the supply chain and ensure the quality of its products and services.

The organization is committed to complying with all applicable standards, customer needs, and regulatory requirements. Everyone in Stevanato Group, from senior management to each individual employee, is accountable and strives to ensure the continuous improvement and the effectiveness of Stevanato Group Quality Management System.

Stevanato Group encourages its organization to heed the voice of customer, industry trends, and report back so it can anticipate future needs and deliver excellence in terms of quality and regulatory standards for its products and services.

Franco Stevanato

Chairman & Chief Executive Officer
